

ProCredit. We are an international group of development-oriented commercial banks for small and medium enterprises (SMEs). We are active in South Eastern and Eastern Europe, South America and Germany. Our overarching goal is to combine a high developmental impact with economic success.

This position is based in Frankfurt am Main at ProCredit Holding, the listed parent company of our banking group. For our Group Credit Risk Management team, we are seeking a motivated

Credit Risk Specialist (m/f/d) **(Portfolio Analysis and Data Handling)**

The Group Credit Risk Management (GCRM) team oversees the management of material credit risks in the group and supports and monitors the implementation of the group credit risk strategy in all ProCredit banks. To this end, the GCRM supports the banks in their lending operations, serving as a centre of professional expertise for all lending-related issues. This includes the setting of group-wide credit risk management standards, the collection and dissemination of best practices, and quality control of the banks' lending business, with the ultimate objective of effectively managing credit risk in the group within the framework of development finance.

What we offer

As a member of the Group Credit Risk Management team, you will be:

- Analysing the overall quality and development of the loan portfolio on a regular basis. This includes collecting and processing the data, performing the analysis, delivering reports and presenting key findings, and whenever possible, recommending mitigation measures
- Supporting risk quantification activities with involvement in data infrastructure and data quality
- Following regulatory requirements and adapting processes and reporting as needed in a timely manner
- Supporting projects related to credit risk reporting and credit risk quantification, including data infrastructure and quality
- Supporting the Group Credit Risk Management team in the continuous development and optimisation of credit risk processes

What we expect from you

- A degree in a business-related discipline from a university, including a university of applied sciences
- Strong analytical skills and the ability to understand and communicate complex relationships and topics
- Strong critical thinking and analytical skills, which includes the ability to apply logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems
- Good knowledge of SQL would be an advantage
- Experience in the efficient handling and management of large data sets, databases and warehouses would be an advantage
- Knowledge of and practical experience with statistical software packages would be an advantage
- Strong command of written and spoken English
- Proficiency with MS Office applications and technical skills for processing data, specifically with MS Excel
- Flexibility and willingness to travel on short-term assignments
- Active listening skills and willingness to learn

What you can expect

- An international environment as well as a pleasant and open working atmosphere
- Flat hierarchies and short decision paths
- Exciting tasks, real responsibility, and cross-team project work
- Long-term prospects and permanent full-time employment
- Job ticket and a company pension scheme
- Great location in the Bockenheim district of Frankfurt
